

Green Industry Education's

Sustainable Landscape Project

This project will assess a residential landscape, design a sustainable landscape, perform site preparation and planting of new sustainable landscape. All phases of this project will be documented on video and used to create a new online training session.

Project Co-chairs:

William Baker (William Baker and Associates) - Certified Golf Course Superintendent, Certified Arborist, licensed pest control advisor, pesticide applicators license.

Janet Hartin (University of California Cooperative Extension) - B.S. and M.S. degrees from the University of Minnesota, Environmental Horticulturist specializing in sustainable landscapes.

Susan Sims (Sims Tree Learning Center) - Agricultural Biologist, ISA Board Certified Master Arborist, CA Certified Urban Forester, CA Licensed Agricultural Advisor, CA Licensed Agricultural Applicator
